

Environmental Policy

Effective Date: 5th September 2024

At Jeenie Solutions, we are committed to conducting our business in an environmentally responsible manner. Our goal is to minimize our environmental impact and contribute to the sustainability of our community and the planet. This Environmental Policy outlines our commitment to environmental stewardship and the practices we have put in place to achieve these goals.

1. Commitment to Environmental Sustainability

Jeenie Solutions is dedicated to integrating environmental considerations into our business operations and decision-making processes. We strive to reduce our environmental footprint through proactive measures and continuous improvement.

2. Environmental Objectives

Our environmental objectives include, but are not limited to:

- **Reducing Waste:** We aim to minimize waste generation through efficient use of resources, recycling, and proper disposal practices. We encourage the reduction of single-use items and promote recycling and reuse wherever possible.
- **Conserving Energy:** We are committed to reducing our energy consumption by implementing energy-efficient technologies, promoting energy-saving practices among employees, and monitoring our energy usage regularly.
- **Sustainable Sourcing:** We seek to source products and services from suppliers who share our commitment to environmental sustainability. We prioritize suppliers that offer eco-friendly and sustainably produced goods.
- **Water Conservation:** We strive to use water resources efficiently and reduce water consumption through conservation practices and technologies.
- **Minimizing Carbon Footprint:** We are actively working to reduce our carbon footprint by adopting practices that lower greenhouse gas emissions, such as encouraging remote work, using energy-efficient transportation options, and supporting sustainable travel practices.

Our operations are based at the Hawk Creative Business Park, a pioneering example of sustainable commercial property development. The site features biomass central heating, rainwater harvesting, low-energy automated lighting, and passive cooling, contributing to our ultra-low EPC rating of 15. This location supports our commitment to minimizing our environmental impact and operating in an energy-efficient manner.

3. Compliance with Regulations

Jeenie Solutions is committed to complying with all applicable environmental laws and regulations. We will stay informed about relevant environmental legislation and ensure that our practices align with legal requirements.

4. Employee Engagement and Training

We believe that environmental stewardship is a shared responsibility. Therefore, we provide training and resources to our employees to promote environmental awareness and encourage sustainable practices both in and out of the workplace.

5. Monitoring and Reporting

We regularly monitor our environmental performance to ensure that our objectives are being met. Any significant environmental impacts or incidents will be addressed promptly and transparently.

6. Continuous Improvement

Jeenie Solutions is committed to continuous improvement in our environmental practices. We will regularly review and update this policy to reflect new developments, technologies, and practices that enhance our environmental performance.

7. Stakeholder Engagement

We value feedback and engagement from our stakeholders, including employees, customers, suppliers, and the community. We encourage open dialogue and collaboration to further our environmental goals and address any concerns related to our environmental impact.

8. Contact Information

For any questions, feedback, or suggestions regarding our Environmental Policy or practices, please contact us at:

Jeenie Solutions
